

---

**Your safety is our priority. We have a protocol in place to keep our patients and staff safe.**

**In order to keep everyone safe and healthy, we are asking our patients to do the following:**

- 1. Brush your teeth, for at least two minutes, at home or at your work just before your scheduled appointment.**
- 2. Call us from your car when you arrive so we know that you are by our office for your scheduled appointment.**
- 3. Please wear a personal mask when you come into the office.**
- 4. Expect us to take your body temperature when you arrive.**
- 5. Only patients with appointment are allowed in the office, no accompanying adults or friends are allowed.**
- 6. Parent(s) please wait in your car, unless your child needs an accompanying adult, in which case wearing a facemask is expected and also taking your body temperature is required as well. At the end of the appointment you may call us from your car to schedule your child's next appointment. Cover your sneeze and cough.**
- 7. Do not come more than 5-10 minutes early.**
- 8. If you are not feeling well or have the following symptoms, i.e. cough, fever, headache, runny nose, tiredness, muscle pain, etc, please do not come to your appointment, but call to reschedule.**
- 9. If you think you or your child may have been infected with COVID-19, please reschedule your appointment, and seek the COVID-19 test as soon as possible.**

**Thanks for your understanding and cooperation!**
